| <https://www.linkedin.com/in/yash-tailor-873aa4241/> | Navi Mumbai

Skills

Kotlin | Java | Android Studio | Android SDK | Android Jetpack (ViewModel, Room, WorkManager) | Jetpack Compose | MVVM | Clean Architecture | Retrofit | RESTful APIs | Coroutines | Firebase | SQLite | Git | Gradle | Material Design | Play Store Deployment | Problem Solving | Communication

Work Experience

Adhyay Infotech Pvt Ltd | Junior Android Developer **April'25 – present**

- Developed, and maintained **3 Android applications** (Mobile Dairy, MD Customer, MD Tracker), achieving **100k+ downloads** and maintaining an average **4.5+ Play Store rating**.
- Took **complete ownership of Android development lifecycle** - from **API integration**, testing, deployment, to release management.
- Enhanced **app stability** and improved **user satisfaction** by proactively analyzing crash reports, debugging issues, and resolving **critical production bugs**.
- Closely collaborated with backend and product teams to deliver **feature-rich apps** on time, minimizing issues and ensuring smooth cross-team communication.
- Ensured **timely delivery of major releases**, directly contributing to business growth and customer adoption.

Suraj Informatics Pvt Ltd | Android Developer Intern **Jan'24 – April'24**

- Managed multiple **logistics** and **port** projects for clients, including **Adani**, JSW and Coromandel.
- Conducted **API integration** using Java for barcode and tag data transfer, and designed applications for scanner devices.
- Identified and resolved critical bugs, and performed thorough **software testing** to ensure client satisfaction.

Projects

Adani Solar **Feb'24**

- Achieved a **10% decrease in inspection errors** by developing an Android app using Zebra SDK for solar panel inspections.
- Improved data accuracy by integrating Adani Solar's backend system through **APIs** for seamless data flow.
- Enhanced operational efficiency by implementing **offline capabilities** in the app, ensuring 24/7 functionality.
- Leveraged Android Studio, Java, SQLite, Zebra SDK to build a robust application for barcode scanning and defect inspection.

Expense Tracker **June'24**

- **Built an Expense Tracker** application using **Kotlin** and **Jetpack Compose** for a modern and responsive UI.
- **Integrated Room Database** for local storage, ensuring efficient and persistent management of expense data.
- Utilized Dagger-Hilt for dependency injection, streamlining the integration of various components and improving the app's scalability.

Education

Bachelor's in technology | Pillai College of Engineering **June'20 – May'24**

- Branch - Information Technology | CGPA - 8.50

Higher Secondary Education | S.K.Somaiya Vinay Mandir Jr College **July'18 – Mar'20**

- Percentage - 76.62 %
